

The iMBA course is designed to be completed completely online in 2-3 years. The majority of the courses in the program will require group work in order to succeed. Cores 1 - 4 are required of all students to complete. Additionally, you will pick 2 of the 4 Focus Area options available. Your 4 Cores and 2 Focus Areas make up your 6 specializations for the program. If you have any questions about what is the best way to plan your courses, please talk with a member of our student support service team.
